Client will click the <u>click here</u> button and the assessment will start. Once they complete the assessment results are automatically sent back to us. They will need to complete this on a tablet (excluding IPad using safari), laptop or desktop computer as phone are currently not working with this program yet. Client will want to make sure they compete assessment in one sitting and that they only hit submit once. Trying to go back and restart will cause multiple inaccurate reports. We use these assessments to tract the outcome of the services we provide.
